

JORDAN O. PAMPLONA

Associate Full-Stack Web Developer

Tanauan City, Batangas | +63 956 329 3943 | pamplonajp.45@gmail.com | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Aspiring Full-Stack Web Developer with hands-on experience building and deploying production-ready web applications using React, Node.js, Express, MongoDB, and modern JavaScript. Independently developed multiple full-stack projects, including a real-time habit-tracking PWA and an offline-first language-learning application, implementing REST APIs, JWT authentication, role-based access control (RBAC), responsive user interfaces, and database solutions with MongoDB, MySQL, and Supabase. Currently pursuing a Bachelor of Science in Information Technology at the Polytechnic University of the Philippines – Calauan Campus (expected September 2026) and seeking an entry-level Full-Stack Developer role to contribute technical expertise while continuing to grow in an Agile development environment.

EXPERIENCE

- Intern, MIS — Municipality of Tanauan City**2023
- Set up, installed, and removed computer hardware and system units for department workstations
 - Performed routine computer maintenance, internal cleaning, and OS reformatting/reimaging
- Intern, RV Lat Group of Companies OPC**2024
- Managed inventory data entry, stock tracking, and order records
 - Produced basic Photoshop layouts and edited a video advertisement, including sequencing
- Salesforce Supported Virtual Internship Program — Philippines**2025
- Completed Salesforce Fundamentals and Data & Security Modeling training
 - Completed Agentforce Essentials and Agentblazer Champion training
 - Built a capstone project on the Salesforce platform

PROJECTS

- Habitaw** — *React 19 · Vite · Node.js · Express · MongoDB · Socket.io · PWA*
Gamified Habit Tracker Platform
- Built a real-time full-stack app with live updates via Socket.io, dynamic XP/streak algorithms, and badge unlock logic
 - Implemented secure JWT authentication with middleware-based, role-protected API routes
 - Engineered event-driven notifications using Web Push and NodeMailer for engagement reminders
 - Optimized client-side performance with React 19 + Vite; deployed as an installable PWA with service worker offline caching
- Live: <https://jpdev-habit-tracker.vercel.app/>
- JPDeck** — *React · Vite · Supabase · IndexedDB · PWA*
Offline-First Japanese Flashcard Learning App
- Architected offline-first sync using IndexedDB with optimistic updates and queued mutations that sync to Supabase on reconnect
 - Implemented spaced-repetition study logic with grading, due-date scheduling, streak tracking, and visual progress stats
 - Integrated AI-assisted flashcard generation and Excel-based lesson imports to accelerate vocabulary creation
 - Designed a feature-rich app covering dashboard, card creation, study mode, quiz, social sharing, and statistics views
- Live: <https://jpdev-flash-cards.vercel.app/>

Medical & Dental Clinic Management System — PHP · MySQL · HTML · CSS · JavaScript
Capstone Project — Full-Stack Web Application

- Developed a complete clinic management system with CRUD for patient records, appointments, and medical histories
- Designed and optimized a normalized MySQL relational schema for efficient, scalable data retrieval
- Built role-based access control (RBAC) for admin and clinical staff, eliminating unauthorized access
- Digitized manual clinic workflows and automated appointment scheduling, reducing administrative overhead

Productivity Timer App — React · JavaScript · Cloud Storage · HTML5 Audio
Interactive Productivity Tool — Frontend Web Application

- Built a Pomodoro-based productivity timer with configurable work sessions, short breaks, and long breaks
- Implemented CRUD-based task management for creating, completing, and tracking tasks during focus sessions
- Built persistent data storage using the Local Storage API to retain task lists, session history, and stats across sessions

TECHNICAL & NON-TECHNICAL SKILLS

Languages:	JavaScript (ES2023+), HTML5, CSS3
Frontend:	React.js, React 19, Vite, PWA (Service Workers, IndexedDB)
Backend:	Node.js, Express.js, PHP, Socket.io, Web Push, NodeMailer
Databases:	MongoDB, MySQL, Supabase (PostgreSQL)
Tools:	Git, Postman, VS Code, XAMPP, Figma
Concepts:	REST APIs, JWT Auth, RBAC, Spaced Repetition, Offline-First Sync
Visual Design:	Canva, Photoshop
Soft Skills:	Time Management, Teamwork & Collaboration

EDUCATION

BS Information Technology | Polytechnic University of the Philippines – Calauan Campus
2023 – Present (Expected September 2026)

Diploma in Information Communication Technology | Polytechnic University of the Philippines – Sto. Tomas
2021 – 2024

STEM Strand | Faith Colleges, Tanauan
2019 – 2021

LEADERSHIP & ACTIVITIES

Senior Artist — THE SEARCHER, Official Student Publication of PUP–Sto. Tomas Campus (2021 – 2024)

AWARDS & RECOGNITION

- President's Lister — Polytechnic University of the Philippines, Sto. Tomas, Batangas
- With Honors — Mabini Educational Institution
- With Honors & Journalist of the Year — Talaga Central School
